Where Community Matters

Joint Statement from Reserve Township and Etna Borough Re: Police Regionalization

The Reserve Township Board of Commissioners and Etna Borough Council have mutually agreed to request technical assistance from the Pennsylvania Department of Community and Economic Development (DCED) regarding the feasibility of establishing a regional police force.

Both governing bodies have a tradition of providing high quality community police services, something they wish to continue. They realize that a regional force may be a more cost effective option while also providing more training, specialty police services, and advancement opportunities. This would lead to better recruitment and retention and provide a more complete service to the community. Fifty-eight percent of municipal police departments in Pennsylvania have less than ten officers. When established thoughtfully and administered properly, a regional police force can provide many benefits to the officers and the communities they serve.

With that in mind, the elected officials, managers and police chiefs of several municipalities met recently to determine the level of interest in exploring a regional force. Of those municipalities, Reserve Township and Etna Borough agreed to take the first step, which is to submit a Letter of Intent to the DCED Governor's Center for Local Government Services requesting technical assistance. If the request is approved, the next step would be a Feasibility Study conducted by Peer Consultants.

Again, this is a very preliminary step in a process which, if approved, would take several years to complete. We wish to keep our communities informed as the process unfolds.

Ronald Neurohr, President
Reserve Township Board of Commissioners

David Becki, President
Etna Borough Council

BUILDING A BETTER RESERVE TOWNSHIP – CONSTRUCTION AND PAVING PROJECTS

We know it seems like there's construction going on constantly, but we're trying to build a better Township!

Here are a few of the infrastructure projects happening now or in the near future in Reserve:

Township Projects:

- **2025 Road Paving** – Contractor A. Folino Construction; paving Fleiner and Magnolia Streets.
- **West Beckert Storm Sewer Improvements** – Contractor: El Grande Industries; updating the old style catch basins at West Beckert and Magnolia and installing new storm sewers along Magnolia & Borough Streets.
- **Lonsdale Sewer Separation** – In design phase; this project will separate the sanitary and storm sewers on Lonsdale Street, in keeping with EPA/DEP mandates.
- **Sewer CCTV** – Contractor: Robinson Pipe; Allegheny County Health Department requires us to camera our complete sanitary sewer system every 10 years. This year's project will inspect 17,500 feet of sanitary sewer.
- **Sanitary Sewer Linings** – Contractor: Jet Jack; this project will reduce infiltration and inflow by lining 4,700 feet of sanitary sewer.
- **Electric Hill Storm Sewer Improvements** – In design phase; will include replacement and/or addition of 13 catch basins on Edison and Ohm Streets.

Other Projects:

- **Haser Place Development:** a 42 unit Ryan townhome neighborhood on Geyer Road with site development underway and home construction expected to start later this year.
- **Allegheny County Public Works Projects:**
 - **Paving of Mt. roy Road** from the Ross Township line to Gardenview Drive (early fall).
 - **Replacement of retaining wall on upper Spring Garden Road** (should finish in September).
- **Duquesne Light Projects:** replacement of deteriorating poles throughout the Township (currently ongoing)
