Thank you to our volunteers who helped with the Annual Easter Egg Hunt on March 28th. We appreciate your time and efforts to making our events memorable!

Thank you to our volunteers who helped with Spring Clean Up Day on May 2nd. We appreciate you taking the time to help keep our community beautiful!

OPENING DAY FOR RESERVE ATHLETIC ASSOCIATION

Officer Trush had the honor of throwing the first pitch on opening day and managed to get a strike. He then proceeded to hoist the cone!

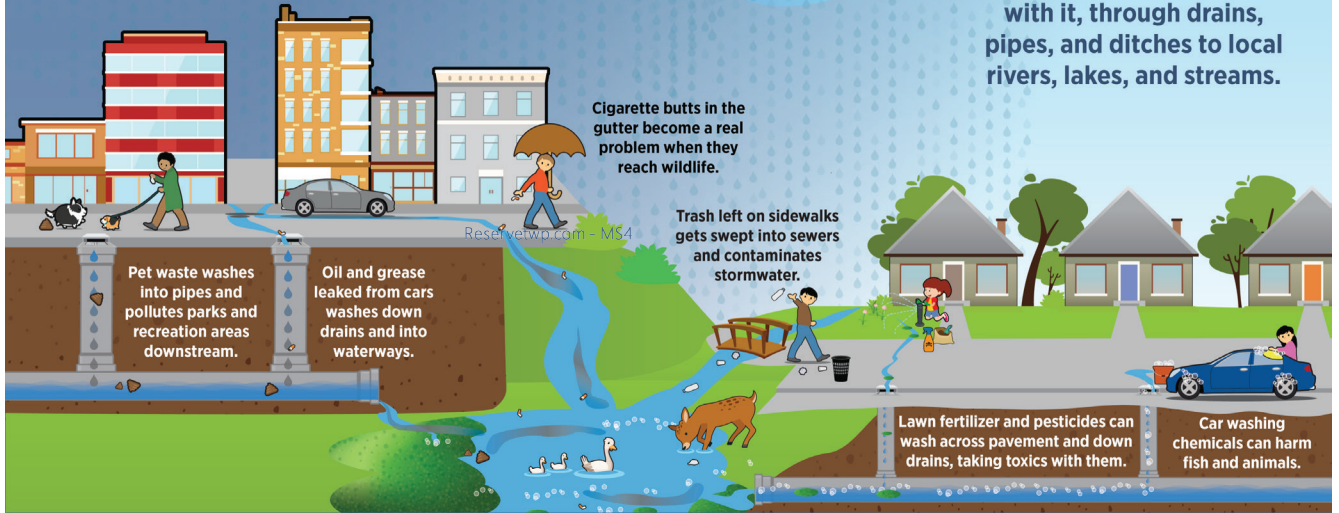

MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) PROGRAM

Stormwater: Where It Flows, Everything Goes

When it rains, snows, or sleet, water hits hard surfaces and takes anything on that surface with it, through drains, pipes, and ditches to local rivers, lakes, and streams.

Cigarette butts in the gutter become a real problem when they reach wildlife.

Trash left on sidewalks gets swept into sewers and contaminates stormwater.

Pet waste washes into pipes and pollutes parks and recreation areas downstream.

Oil and grease leaked from cars washes down drains and into waterways.

Lawn fertilizer and pesticides can wash across pavement and down drains, taking toxics with them.

Car washing chemicals can harm fish and animals.

Where Stormwater Flows, Everything Goes

Smart Steps to Stormwater Management

Make your community better! You can take steps to decrease the pollution that flows into local waterways every time it rains, snows, or sleet by following these tips.

Direct water from downspouts and sprinklers to green areas only.

Always pick up and dispose of pet waste in the proper container.

Don't park on the street during days designated for street sweeping.

Keep trash in its place and never dump down storm drains.

Don't oversalt your walk or driveway.

Avoid applying pesticides or fertilizer when rain is predicted and avoid spraying any chemicals on pavement.

COFFEE WITH THE MANAGER – COME OUT AND SEE WHAT YOU’RE MISSING!

Have you ever wanted to engage more with your local government officials? Or maybe you just have a particular question about something going on in the community.

Come to our “Coffee with the Manager” held monthly on Friday morning of the week before the monthly Board meeting (follow our Facebook page or check our website for specific dates). Most months we have a special guest.

Past guests have included County Hauling, Shaler Area Superintendent of Schools, Reserve Primary School Principal, Allegheny County Conservation District, Three Rivers Wet Weather, State Representative Lindsay Powell, and PA One Call. If you’re able to spare an hour or two, we’d love to see you. Busy during the day? The monthly Board meeting is open to the public as well.
